

Visit of EPFL and UN, July 20

EPFL is one of the two Ecoles Polytechniques fédérales in Switzerland. Like its sister institution, ETHZ, it has three missions: education, research and technology transfer at the highest international level. Associated with several specialised research institutes, the two EPFs form the EPF domain, which is directly dependent on the Federal Department of Home Affairs.

EPFL, in its idyllic location on the shores of Lake Geneva, brings together a campus of more than 10,000 people. By its novel structure, the school stimulates collaboration between students, professors, researchers and entrepreneurs. These daily interactions give rise to new and groundbreaking work in science, technology and architecture.

With more than 250 laboratories and research groups on campus, EPFL is one of Europe's most innovative and productive technology institutes.

The School's unique structure facilitates transdisciplinary research and encourages partnerships with other institutions. EPFL emphasizes both fundamental research and engineering applications.

Program:

- | | |
|--------------------------------------|--------|
| • Rendez-vous at EPFL | 9:15 |
| • Room CM 120 coffee | 9:30 |
| • EPFL presentation | 10:00 |
